PRINCE TAKES YANKEE
DANCES TO ENGLAND
Lendon, Jan 21.—(A. P. Correspondence)—"Robber" or "Paul Jones" dames are be-eing introduced in some West End clubs and dancing halls at we the Prince of Walos re-

si we the Prince of White re-turned from the United States, where he gave this form of dance royal approval by walta-ing, one-stepping and fox-tretting with to less than fifty partners at one ball.

As the name indicates, in "riber" dances, male nembers of the party who happen to be without auriness are rivident without purners are privileged to "out in" on any of the more

fortunate men who have part-

force. In England it bas been the during the exempts and more frequently only now. (but 1,000-donors, 1/2 trible out the

Iler Concert Great Success

Program Included Original Compositions by Mr. Her and Mrs. Meek.

When Charles Her, the young hattanooga musician, appeared in concert Friday night at the courthouse auditorium, he was greeted with hearty applause from an audiwith hearty applause from an audience of representative musicians and music lovers. His first number was a prelude in C minor, by Rachmainoff, a Russian composer who has come very much into prominence in the past few years. The second, "Humoresque," was by the same composer and proved also a very pleasing number. Mr. lier was recalled and gave for an encore "Spring Song," by Henselt.

Mrs. Meek, accompanied by Mrs. Mrs. Meek, accompanied by Mrs. George Lawton, sang the aria from Samson et Delliah, by Saint-Saens, and her clear lyric soprano was heard to good advantage, her tone work carrying beauty and perfection in the highest notes.

The heaviest number played by Mr. Her, "Venice and Naples," by Liszt, his original combination of the "Boat Song" and "Tarantelle," was the last on the program. This piece has been played here before the public by a noted professional, and the playing of Mr. Her Friday evening did not suffer the slightest by contrast.

Decidedly the most popular and striking number was "Three Folk Song Paraphrases" as arranged by Mr. Her. They embraced the familiar airs of "Turkey in the Stream".

Ten years of Dr. Musser's life have miliar airs of "Turkey in the Straw,"
"Tve a Long Time Heard" and "Old Twe a Long Time Heard" and "Old Women." These airs are old acquaintances as sung, but Mr. Her seems to have the field to himself in the instrumental transcription. It is his ambition to be the people's planist and to bring the music of every-day life to an appreciable standard of understanding. He recently played these paraphrases before a national gathering of the Federated Music Clubs at Peterboro, N. H., and Mr. Her was highly commended for Mr. Her was highly commended for his efforts in this line. Mr. Her re-ceived his early training at the Chattancoga School of Music.

Mrs. Meck sang in beautiful voice
a MacDowell number—"Robin Sings
in the Apple Tree"—and four Mother

Goose songs, written by Mortimer Wilson for his little boy, which Mrs. Meek had been allowed to sing at one time before the one time before they were published. They have since been played all over the country. For an encore she sang one of her own compositions, called "Mishap," which delighted the audience. The playing of Mrs. General ence. The playing of Mrs. George Lawton as accompanist was executed with exquisite taste and interpreta-

The artists were enthusiastically applauded and the entire program was a decided success.

MRS. TRIMBLE PRAISED BY MEMPHIS PRESS

News comes from Chattanooga of the resignation of Mrs. James Martin Trimble, of that city, as vice-president of the Tennessee Federation of Wemen's Clubs, the reason given being ill-health, says the Memphis News-Schultar. The resignation of the state presi-

dent. Mrs. Arthur S. Buchanan, of this city, was tendered only last week and it was expected that the duties of the office would be taken over by Mrs. Trimble at least until after the annual meeting, which will be he'd in Knoxvi'le in the spring. Since Mrs. Trimble also has re-signed it will be necessary to have

a meeting of the executive board and elect a new presiding officer.

Mrs. Trimble has for many years been one of the most active and capable workers in the federation.

A special feature of the service will be a lecture by baving served upon important com-mittees and as a member of the ex-ecutive board. It was confidently expected that she would be chosen as expected that she would be chosen as the next federation president, as the office goes by rotation to the three sections of the state and the choice at the next election would rest with East Tomessee. Mrs. Trimble very naturally would have been the popular choice, as before her marriage to Mr. Trimble she was Mrs. Lula Cates Mr. Trimble she was Mrs. Lula Cates and has a host

Christ Church Observes Feast

Sunday Morning Candles Will

Mass.

Sunday morning at Christ church the Feast of Candlemas will be observed in a special service, at which the entire supply of candles for the altars for the coming year will be blessed.

This feature in the banner for the dental inspection conducted Thursday, as twenty-four certificates were given children for perfect mouths and teeth conditions. Neither was this school behind in being ready for the dental inspectors and as sistents, as they had a most tempting plants lunch prepared for them at noon. It consisted of sandwiches, salads, cake and hot coffee. The entire faculty acted as hostess and the recess was made a social feature which was enjoyed by all.

This feast always falls on Feb. 2. and the Surday in the octave in which this date falls is selected for its observance. At the 10,20 o'clock mass a solemn procession carrying lighted candles will be formed, in which the entire congregation will take part.

In the middle ages Candlemas was always marked with processions out-side the church buildings. The celebration is traced back to the earliest Christians. It marks the presentation of the Infant Christ at the temple forty days after His birth and the purification of His mother through the prayer of Simeon the Just in the presence of Anna prophetess. This prayer, called the Nunc Dimittis, is used as one of the chants in the service of the Catholic church today.

Maj, and Canon E. Sidney Savage who is in Chattanooga in the interest of the Child's Welfare association of Serbia, will address the congregation for relief for the children of Serbia. Hexham abbey, England, and re-

to come in the second episode.

Why Authorities Urge Milk When milk enabled him to grow out

of frailty into health, it aroused the interest of Dr. E. V. McCollum, of Johns Hopkins University, and led him finally to make it a life study.

He has demonstrated its richness in those mysterious yet es-sential life forces. "Fat soluble A" and "Water soluble B." He has shown that no food will take the place of milk in making normal, healthy growth. The infant mortality of Belgium and Poland resulting from the milk famine during the war gives force to his findings.

He says: "Soluble vitamines ("Fat soluble A" and "Water soluble B,) are just as essential for the maintenance of a full-grown man or animal in a state of health as they are for the support of

growth in the young.
"Milk is without doubt our most important foodstuff. This is true because the composition of milk is such that when used in combination with other foodstuffs or animal or vegetable origin it corrects their dietary deficiencies." "It is my custom to urge that the nearer every person, child and

adult alike, approximates a consumption of one quart of milk a day the better off he will be."

Dr. Joseph Goldberger, of the U. S. Public Health Service, has shown that the addition of milk to the diet overcomes Pellagra in

Says Dr. Leonard Keene Hirshberg, of Johns Hopkins, "Milk used in combination with butter, or each used separately, cold or warm, are excellent warders-off of that scourge called Spanish Influenza." Says Professor Oscar Erf, of Ohio State University: "No other

food can provide the proper combination of substances that will nourish the body and keep down intestinal fermentation as well as Dr. McCollum also says: "Milk should always be pasteurized unless it is known to have been obtained from cows that are tuberculin-tested at frequent intervals, and unless the health of the milkers is unquestioned."

"CLOVER LEAF" MILK IS PURE, CLARIFIED, PASTEURIZED
